keynote of the speaker
national Technology Day celebrated in the
name of achievement in science and technology
to explain about the technology and current
trends. The successful testing of the nuclear
bomb, code named operation shakti, made
India the sixth country in the world to
possess nuclear technology.

Some of the current trends in Computer
science AI, chatGPT, Metaverse, blockchain
technology, etc.

AI, Metaverse technology, Web3, progress
in green Computing, Robots technology.

Explained about recent technology like
React Js, Angular, Vue, Js, Next Js.

Recent programming technology like
Laravel, Ruby on Rails, Node.js, Asp.Net, Django,
PHP, Spring boot.

Students are actively interacted and
group discussions also carried out then innovative
ideas could be discussed. finally vote of thanks
given by Mr. C. Balasubramanian, Assistant
Professor Department of Computer Science.

Ms. S. Sathya, IInd OS I Batch student and
last but not least Ms. A. Pradeepa, IInd OS
student, Department of computer
Science.

MATLAB is a high level programming
language designed for engineers and scientists
that expresses matrix and array mathematics
directly. you can use MATLAB for everything,
from running simple interactive commands to
developing large-scale applications. with
MATLAB, you can develop algorithms much
faster than traditional languages, such as
C, C++ or Fortran, without having to declare
variables, allocate memory or compile
code.

"MATLAB is developed by Mathworks".

MATLAB (Matrix Laboratory) is a
fourth-generation high-level programming
language and interactive environment for
numerical computation, visualization and
programming.

- * It allows matrix manipulations.
- * plotting of functions and data
