MAGNETIC MATERIALS IN NANO TECHNOLOGY

Department of Physics in association with Anyabatta Adventure club organized a lecture on "Magnetic materials in nanotechnology". The special guest was welcomed by D.T. Prathana, II PG Physics. The speaker for the lecture was Dr. M.K. VadiVazhagi is presently working in department of Biochemistry as an Assistant Professor. Ms. Dr. M.K. VadiVazhagi discussed a brief note on modern technologies aided the various new magnetic materials, synthetic structures, micro and nano structures, Magnetism has come a long way and found applications in a range of multidisciplinary fields in present and future. The session was so thoughtful and relevant to the environment. Finally, the vote of thanks was given by Ms. Abitha, II PG department of physics presented a small token of appreciation to our special guest.

DEPARTMENT OF PHYSICS

SEARCH ON ASTEROID

Search on Asteroid is a dynamic awareness event and educational program to inspire the world about asteroid, their role in the formation of our solar system. Asteroid day events are independently organized around the world for people of all ages. In 2016, the United Nations officially designated asteroid day as the international day of awareness and education about asteroids. This event made significant strides educating the world about asteroids. Such kind of events share information and teach about the science opportunities and risks of asteroids. Through Search Asteroid campaign we continue to inspire people and young minds to look up into the sky and to be excited about our solar system.

Search Collaboration (IASC) has launched an asteroid search campaign. The event was conducted during the month of 9th Nov to 4th Dec 2020. Two teams were selected for the event under the name of DSF aided and Vaibhav. Teams receive telescopic images taken along the ecliptic. Using software Astrometrica they can accurately measure the time and position of asteroids moving in the background. The analysis report is been submitted in the form of MPC report. As the successful completion of the event students from the 2 teams have received participation certificate from the collaboration of DSF and NASA.

ELOCUTION COMPETITION

Elocution competition was conducted on 11th March 2021 for National Science day celebration. Students were given a topic "Benefits of Radiation for humankind". Every participant was given precisely 5 min to prepare the speech on the selected topic. It was indeed outstanding to see how students had put their thoughts, insights and delivered the speech which was fluent and articulate. Two students from each stream I, II and III UG have participated in the event. The parameter for the judgement was content, fluency, confidence and presentation. Three students were selected as the winners and awarded with a cash prize on national science day celebration. Ms. V. Maria Vinoseel and Mr. M. Arjunan Assistant professor of physics were the judges for the event. The competition was conducted with a few words of encouragement by the judges.
